

Sentence resampling did not isolate a decision pivot

122B-A10B; nine selected route-using histories; ten attempted continuations per side.

Completed-only: before 53/62; through 65/68. Fifty empty-response failures include 18 that already fetched.

All-attempt observed fetches: before 61/90; through 75/90. Unfinished runs are not evidence of compliance.

Both sides often fetched; selection, failure imbalance, and changed prefix length prevent a strong causal timing claim.
